

# LES AVENTURES DE MR. JULES

## Spanish Brass Albert Guinovart

When the members of Spanish Brass commissioned a piece for me to premiere at the Alzira Festival 2011, I felt I was going to have to make music suitable for a summer festival, something that was fun to play and listen to.

I already knew about the great musical virtuosity – and virtue – of each of the quintet members because we had collaborated on another project years ago.

I was excited to write a piece for a sextet, with me playing the piano part, so I tried to compose a piece that would be both attractive to the public as well as demanding and exuberant from an instrumental point of view.

It was with all this in mind that I wrote *Las Aventuras de Monsieur Jules* (The Adventures of Monsieur Jules), a work in six movements for a brass quintet and piano. Each movement is inspired by a novel written by the great French writer Jules Verne, hence the titles. The six movements are as follows:

- I. *Vingt mille lieues sous les mers* (Twenty Thousand Leagues Under the Sea)
- II. *Michel Strogoff*
- III. *Nord contre Sud* (North against South)
- IV. *Voyage au centre de la Terre* (A Journey to the Center of the Earth)
- V. *Le Rayon vert* (The Green Ray)
- VI. *Le Tour du Monde en quatre-vingts jours* (Around the World in Eighty Days)

You could say that the plot of most of these novels forms part of our collective imagination. I thought it would be a good idea to create evocative music for each title and that this would lead to recognition on the part of the audience of descriptive fragments of the books, without any clarification other than the title.

The music I created is more suggestive than descriptive in the sense of being able to follow the story's plot. The movements are detached images and specific scenes that stir memories of these stories in adults who puts themselves in the shoes of a child as they rediscover the adventures that made them dream.

I think I have composed an attractive piece that is easy to listen to from the first time you hear it, not only because the audience can relate to it from a common experience, but also because through their imagination, the audience can enjoy expressive, virtuosic, intimate, comic, satirical, or even dream-like moments through the sounds created on stage by six musicians.
