

spanish BRASS

35

35 is not only the title of **Spanish Brass's** latest album, it is also our newest artistic project, which celebrates our 35th anniversary in 2024. Returning to our origins as a brass quintet, the project will feature some of the most significant works from the trajectory of our career, along with newly-composed pieces and arrangements created specially for the occasion.

Throughout the years, Spanish Brass has explored the works of a wide range of composers such as **Luciano Berio, Pilar Jurado, Witold Lutosławski, Antón García Abril, Nuria Nuñez, Vladimir Cosma**, as well as arrangements of Johann Sebastian Bach, Michel Legrand, Antonio Carlos Jobim, Manuel de Falla, and Joaquín Turina, among others. All of this will be reflected in a program that can be adapted to various venues or schedules, even allowing for customized programs for various presenters or audiences.
